

CREATE-X ENTREPRENEURSHIP TRACK

for undergraduates at Georgia Tech

IDEA PHASE

*CREATE-X programs can be non-sequential

➤ Startup Lab

Startup Lab teaches evidence-based entrepreneurship. Learn valuable skills for any innovation role, from big companies to building startups.

Students can enroll in the three-credit class in the fall and spring semesters as a free elective. Courses include:

- COE 2701
- CS 2701
- MGT 4803

PROTOTYPE PHASE

➤ Idea to Prototype

I2P gives you the opportunity to carve time out of your class schedule to form teams with students from other majors and build a prototype of your invention idea. Students can apply for I2P in the fall, spring, and summer semesters as a technical elective, up to two times.

➤ CREATE-X Capstone

CREATE-X Capstone is a special section of the senior design course dedicated to entrepreneurial projects. Students can enroll in the class in the fall and spring semesters as a technical elective. Courses include: ME 4723 - X, ECE 4723 - X + ECE 4723 - LX, CS 4723 - X + CS 4723 - XS, BMED 4723 - X + BMED 4723 X01, and ISYE 4106.

LAUNCH PHASE

➤ Startup Launch

Startup Launch is a 12-week summer program where students launch their own startup and intern for themselves. Only one person from each team must be Georgia Tech affiliated and applications are accepted on a rolling basis.

Teams accepted into Startup Launch receive \$5,000 in seed funding and \$30,000 in in-kind services including:

- Coaching
- Mentorship
- Accounting services
- Office space
- Access to investors
- Legal incorporation services
